SUPPLEMENTARY INFORMATION:

The Patent and Trademark Office is amending Title 37 of the Code of Federal Regulations by deleting §§3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.21, and 3.25 since §1.61, which required a petition, was revoked on July 2, 1971, by revising §§3.11, 3.11a, 3.12, 3.12a, 3.13, 3.13a, 3.14, 3.14a, 3.16, 3.16a, 3.17, 3.17a, 3.18, 3.18a, 3.23, 3.23a, 3.26, 3.26a, 3.28, 3.29, 3.31, 3.31a, 3.32, 3.32a, 3.33, 3.36, 3.37, 3.39, 3.41, 3.43, 3.46, 3.50, 3.52, 3.53, and 3.54 and by adding a new §3.33a. These sections are suggested forms for use in patent cases.

These revisions conform the language of the forms, where necessary, to changes which have previously been made in Part 1 of this Chapter and also alter the language in the forms where incorrect or inconsistent. These revisions do not effect any changes in practice and do not impose a burden on anyone. Consequently, procedures for public comment prior to the adoption of these revisions are not deemed necessary.

The general nature of the changes in the forms are as follows:

1. The oath and declaration forms for patent applications have been amended to include a reference to the filing and issuance of inventor's certificates. Such a requirement is set forth in current sections 1.65 and 1.67 of Title 37 CFR.

2. The oath and declaration forms for patent applications have been amended to include the statement by applicant acknowledging the responsibility to disclose information to the Patent and Trademark Office. Such statement will be required by section 1.65 effective January 1, 1978, but may optionally be used prior to that date, as suggested in the notice published on January 28, 1977, in th Federal Register, 42 F.R. 5588 at 5590, and on February 22, 1977, in the Official Gazette (Patent Section), 955 O.G. 1054 at 1056.

3. "United States" has been changed to --United States of America-- to give the full name.

4. In many instances the forms were changed to avoid use of only the masculine gender.

Sections 3.28 and 3.29 have been revised to omit the obsolete requirement for a petition.

Section 3.41 has been revised to delete requirements no longer needed under current internal procedures.

Section 3.52 has been amended by reordering the items and by deletion of an outdated item.

Section 3.54 is a revised version of the wording currently found in Section 201.06(a) of the Manual of Patent Examining Procedure.

Pursuant to the authority contained in section 6 of Title 35, United States Code, the following changes are made in Part 3 of Chapter I of Title 37 of the Code of Federal Regulations.
